

School on waveform digitizer

Tuesday, November 28, 2023 - Tuesday, November 28, 2023

Programme

This event is strictly by registration only and if you would like to be considered for as an audience member please register using the menu on the left.

Program

From Analog to Digital in Physics Application

Introduction to Waveform Digitizers

Digital Pulse Processing Algorithms: DPP-PHA, DPP-PSD, DPP-QDC

Advanced Zero Suppression: DPP-ZLE and DPP-DAW

Introduction to ASICs based DAQ

Videoconference link will be published on the school day
