

2° School on Waveform Digitizer

Thursday, 18 July 2024 - Thursday, 18 July 2024

Programme

This event is strictly by registration only and if you would like to be considered for as an audience member please register using the menu on the left.

Program

Introduction to CAEN Second Generation Digitizers and supported algorithms

Hands on about digitizer web interface and Wavedump2 software

Hands on about Pulse Height Analysis algorithm with NaI detectors and CoMPASS software

Hands on about Charge Integration, Costan Fraction Discriminator and Pulse Shape Discriminator with NaI and BaF2 detectors and CoMPASS software

Videoconference link will be published on the school day
